

PANEL PRINT SKY ENTER A NEW WORLD OF LIGHT

LEDVANCE

 PROJECT
SERVICES

When entering buildings or rooms we take light for granted.
Be it natural or artificial light we expect it to be there.

+ What if you entered a room and found completely unexpected light?

+ What if you were mesmerized by its effect?

+ What if you found yourself as entering almost into a new world?

What if you could create those new worlds at office lounges, shops, waiting rooms, show rooms, reception areas or simply corridors – wherever designed light is creating a special atmosphere.

Order PANEL PRINT SKY from your wholesaler to transform your customer's spaces into a new world.

DESIGN YOUR LIGHT CREATE YOUR OWN LUMINAIRE BY 2D PRINTING

Not suitable for direct workstation lighting in offices or schools, due to UGR22.

Benefits for customers:

- Let their identity shine by printing their corporate logo on luminaires
- Let the topic of their business be reflected in the lighting
- Let their clients and visitors experience a special atmosphere under luminous ceilings

Possible applications:

- Welcome desks of companies
- Waiting rooms of doctor's practices
- Recreational areas of kindergartens/schools

You have a specific project for which you would love to have your customer's logo, photo or visual printed on a LEDVANCE Panel luminaire? Get in touch with us.
